Summary

Strategic B2B marketer for enterprise SaaS and AI. I turn customer signals, competitive data and market shifts into executive-ready recommendations, then drive them to execution with Sales, CS, Product and R&D. I also manage PMMiya, Israel's largest product marketing community.

Professional Experience

Demostack, Tel Aviv, March 2026 to August 2026
Founding Product Marketing Manager

- Led strategic deal engagements alongside reps and SEs, structuring each opportunity's business case and tailoring the pitch, demo and rollout to the buyer's priorities.
- Owned the go-to-market strategy for the company's agentic offering (enablement agents and MCP) from problem definition to launch: positioning, naming, value-driven messaging, competitive differentiation, PR and field training, setting Demostack apart in a crowded ecosystem.
- Turned customer and prospect conversations (F2F, Zoom, Gong) into structured insights on unmet use cases that shaped the roadmap, and into proof points such as case studies, testimonials and G2 reviews.
- Built repeatable AI workflows that removed long-standing bottlenecks for design and PM, letting account executives self-serve slides, UI mockups and one-pagers aligned with the current narrative.
- Opened new commercial motions beyond outbound, such as:
    - Community and partner collaborations with ICP influencers, including a vibe coding hackathon that generated 3 enterprise SQLs.

PMMiya Community, Tel Aviv, February 2026 to present

- Host a series of live stream events on how to champion **product marketing in cybersecurity** with PMM leaders from the security ecosystem. Recent guest includes Eyal Webber-Zvik from Cato Networks.
- **Manage** Israel's largest product marketing community, delivering high-quality content in the form of meetups, podcasts and webinars packed with practical, ready-to-apply GTM insights.

Windward Maritime AI, Tel Aviv, May 2023 to May 2025
Product Marketing Manager

- Owned the positioning and messaging of the company's AI story, contributing to its acquisition in 2025.
- Launched 3 technical products, framing each around its commercial value for freight forwarders, insurers, government and energy majors.
- Acted as the internal expert on domain and platform, advising leadership on strategic initiatives, training customer-facing teams and representing Windward in webinars, briefings and trade conferences.
- Led go-to-market planning end to end, from segmenting audiences and use cases to upskilling the business unit and tracking execution against measurable KPIs.
- Enabled sales and CS with battlecards, objection handling, discovery guides, one-pagers, pitch slides and FAQs, keeping them current as the product evolved.
- Ran ongoing market and competitive analysis, interviewing clients and prospects and turning the findings into recommendations that shaped the narrative, campaigns and roadmap.

Cellebrite (NASDAQ: CLBT), Petah Tikva, December 2021 to April 2023
Senior Manager, Product Marketing

- Led the category shift from offensive cybersecurity to digital intelligence, owning positioning, the competitive narrative and GTM materials for security, intel and law enforcement buyers.
- Partnered with Product and R&D to take launches from definition to rollout across channels, owning naming and the talk track.
- Built customer research programs, turning surveys into published market reports and testimonials, and running localized field activities.
- Ran large-scale training events, including SKO for a 300+ person sales org, equipping sales and CS with persuasive stories and the domain expertise needed to win.
- Built and maintained the sales enablement library reps relied on to close deals: battlecards, objection handling, discovery guides, demo scripts, competitor analyses and pitch decks.
- Translated deep forensic capabilities into executive-level messaging and presentations for senior customer and internal stakeholders.

BIG SHOT, TEL AVIV, DECEMBER 2020 TO DECEMBER 2021
