

Daniel Nachum

Hands-on PMM | Security B2B SaaS | Category creation | Sales enablement

Tel Aviv, Israel oberman.daniel@gmail.com LinkedIn (see Recommendations) GitHub

EXPERIENCE

Founding Product Marketing Manager · Demostack, Tel Aviv

Mar 2026 – Aug 2026

Role eliminated in a layoff that cut 60% of the company's workforce

- Built product marketing from scratch as the first PMM hire and shifted the business toward enterprise deals, working with sales on every opportunity side by side.
- Led the launch of the company's AI and agentic offering (enablement agents and MCP), owning positioning, naming, value-driven messaging, competitor differentiation, sales collateral, customer validation, website content, PR, enablement and launch comms.
- Engaged directly with customers and prospects (F2F, Zoom, Gong) to surface unknown use cases and needs that shaped the roadmap and positioning, and to create customer proof such as case studies, testimonials and G2 reviews.
- Built AI agents with Claude Cowork to automate long-standing bottlenecks in case study creation and product launches.
- Drove pipeline and brand exposure through community- and partner-led collaborations, including a vibe coding hackathon that generated 3 enterprise SQLs, plus organic and paid campaigns built on product marketing content.

Manager · PMMiya Community, Tel Aviv

Feb 2026 – Present

- Manage Israel's largest product marketing community, running events, podcasts and webinars packed with practical GTM insights.

Hands-on Product Marketing Manager · Windward Maritime AI, Tel Aviv

May 2023 – May 2025

- Owned the positioning and messaging of the company's AI story, contributing to its acquisition in 2025.
- Launched 3 technical products, translating deep technical capabilities into a clear, buyer-facing narrative for risk, compliance and security teams.
- Led go-to-market strategy and execution, from identifying audiences, use cases and USPs to training the business unit and deploying the marketing plan, with a data-driven focus on measurable outcomes and KPIs.
- Worked with analysts (such as Gartner), industry thought leaders and award organizations to position Windward as a category leader.
- Enabled sales and CS with battlecards, objection handling, discovery guides, one-pagers, sales slides, competitive analyses and FAQs.
- Served as the company's subject matter expert on domain and product topics, training customer-facing teams and representing the company in webinars, analyst briefings and industry conferences.
- Wrote product marketing content for enterprise sales cycles, matching landing pages, case studies, whitepapers and webinars to the right audiences to move prospects through the funnel.
- Represented the voice of the market, talking to customers and prospects directly, tracking the competitive landscape and turning those insights into positioning, campaign and product decisions.
- Developed user-facing content, including user guides, feature announcements and demo videos, focused on clarity and practical value.

Senior Manager, Product Marketing · Cellebrite (NASDAQ: CLBT), Petah Tikva

Dec 2021 – Apr 2023

- Led the category shift from offensive cybersecurity to digital intelligence, owning positioning, the competitive narrative and GTM materials for security, intelligence and law enforcement buyers.
- Led product launches end to end with Product and R&D, from naming and positioning to sales narrative, launch assets and GTM across channels.
- Armed sales with the enablement reps used to close deals: battlecards, objection handling, discovery guides, demo narratives, competitive analyses and sales presentations.
- Ran large-scale training events, including SKO, giving sales and CS teams sharp narratives and the product expertise needed to win deals.
- Built ongoing customer engagement programs: testimonials, customer surveys that became published reports, and localized field activities.
- Translated deep technical forensic capabilities into sharp, buyer-facing content for inbound and outbound channels.
